College of Science, Engineering & Food Science

University College Cork – Thailand Alumni Scholarships 2016/2107

The College of Science, Engineering and Food Science (SEFS) is pleased to offer scholarships for 2016/2017 academic year (full tuition fee waiver). The scholarship will support two students from Thailand to complete a one-year full-time taught master’s programme in SEFS.

The College Science, Engineering and Food Science proposal is for two scholarships for Thai applicants on MSc programmes in the following areas:

- **Biotechnology** to include MSc degrees in Biotechnology, Bioinformatics and Computational Biology, Analytical Chemistry, Analysis of Pharmaceutical Compounds, Molecular Cell Biology with Bioinnovation, Food Microbiology and Food Science, Ecological Assessment, Marine Biology, Exploration Field Geology, Geographical Information Systems, Organic Horticulture
- **Engineering** to include MEngSc degrees in Electrical and Electronic Engineering, Marine Renewable Energy, Information Technology in Architecture, Engineering & Construction, Mechanical Engineering, Pharmaceutical and Biopharmaceutical Engineering, and Sustainable Energy.
- **Information and Communications Technology** to include the MSc degrees in Computer Science, Data Science and Analytics, Interactive Media, Mathematical Modelling and Scientific Computing, and the MEngSc degree in Information Technology in Architecture, Engineering and Construction

Internationalisation is a key priority for the College of SEFS. We have been particularly successful in attracting high performing students from Thailand to our College and take pride in their success in their chosen fields of study.
